Step1: Install the node.js
Step2:type the command in the local system command prompt
step3: type npm install n8n -g
step4: then after installing type n8n
step5 : npx n8n

(then u will get this message
There is a deprecation related to your environment variables. Please take the recommended actions to update your configuration:

 - N8N_RUNNERS_ENABLED -> Running n8n without task runners is deprecated. Task runners will be turned on by default in a future version. Please set `N8N_RUNNERS_ENABLED=true` to enable task runners now and avoid potential issues in the future. Learn more: https://docs.n8n.io/hosting/configuration/task-runners/

[license SDK] Skipping renewal on init because renewal is not due yet or cert is not initialized

Version: 1.93.0

 ==============================

   Start Active Workflows:

 ==============================

  - "n8n day 1 agent" (ID: 63w21akQpT2utGvr))

    => Started

 - "using the outlook" (ID: TYli8vYNzTnqvyrW))
    => Started

Editor is now accessible via:

http://localhost:5678

Press "o" to open in Browser.)

press o and then it will redirect u to the n8n application

then after pressing the o u will see this above thing and fill the aerobyte mail details as shown above

These questions help us tailor n8n to you

What best describes your company?

Systems integrator / Automation agency

Hi there,

Please find your license key below to unlock selected paid features on your community edition of n8n.

Your license key

26b6a54a-5af1-4332-8233-072572040955

Activate License Key

Getting started and what happens next:

1. **Activate Your License:** Use the button above or copy and paste the license key into settings->usage and plan then click the enter activation key button. You have 14 days to activate your license.

2. **Explore Features:** Take a look the features you've unlocked, Workflow history, Debug in editor, Folders and custom execution search.

3. **Unlocked for life:** You'll have life time access to these features

Need Help? Our community forum and docs are the best place to to ask questions and find out more about using n8n!

Happy automating!

n8n Team

---

soo like this u will get the lisence and then press activate it
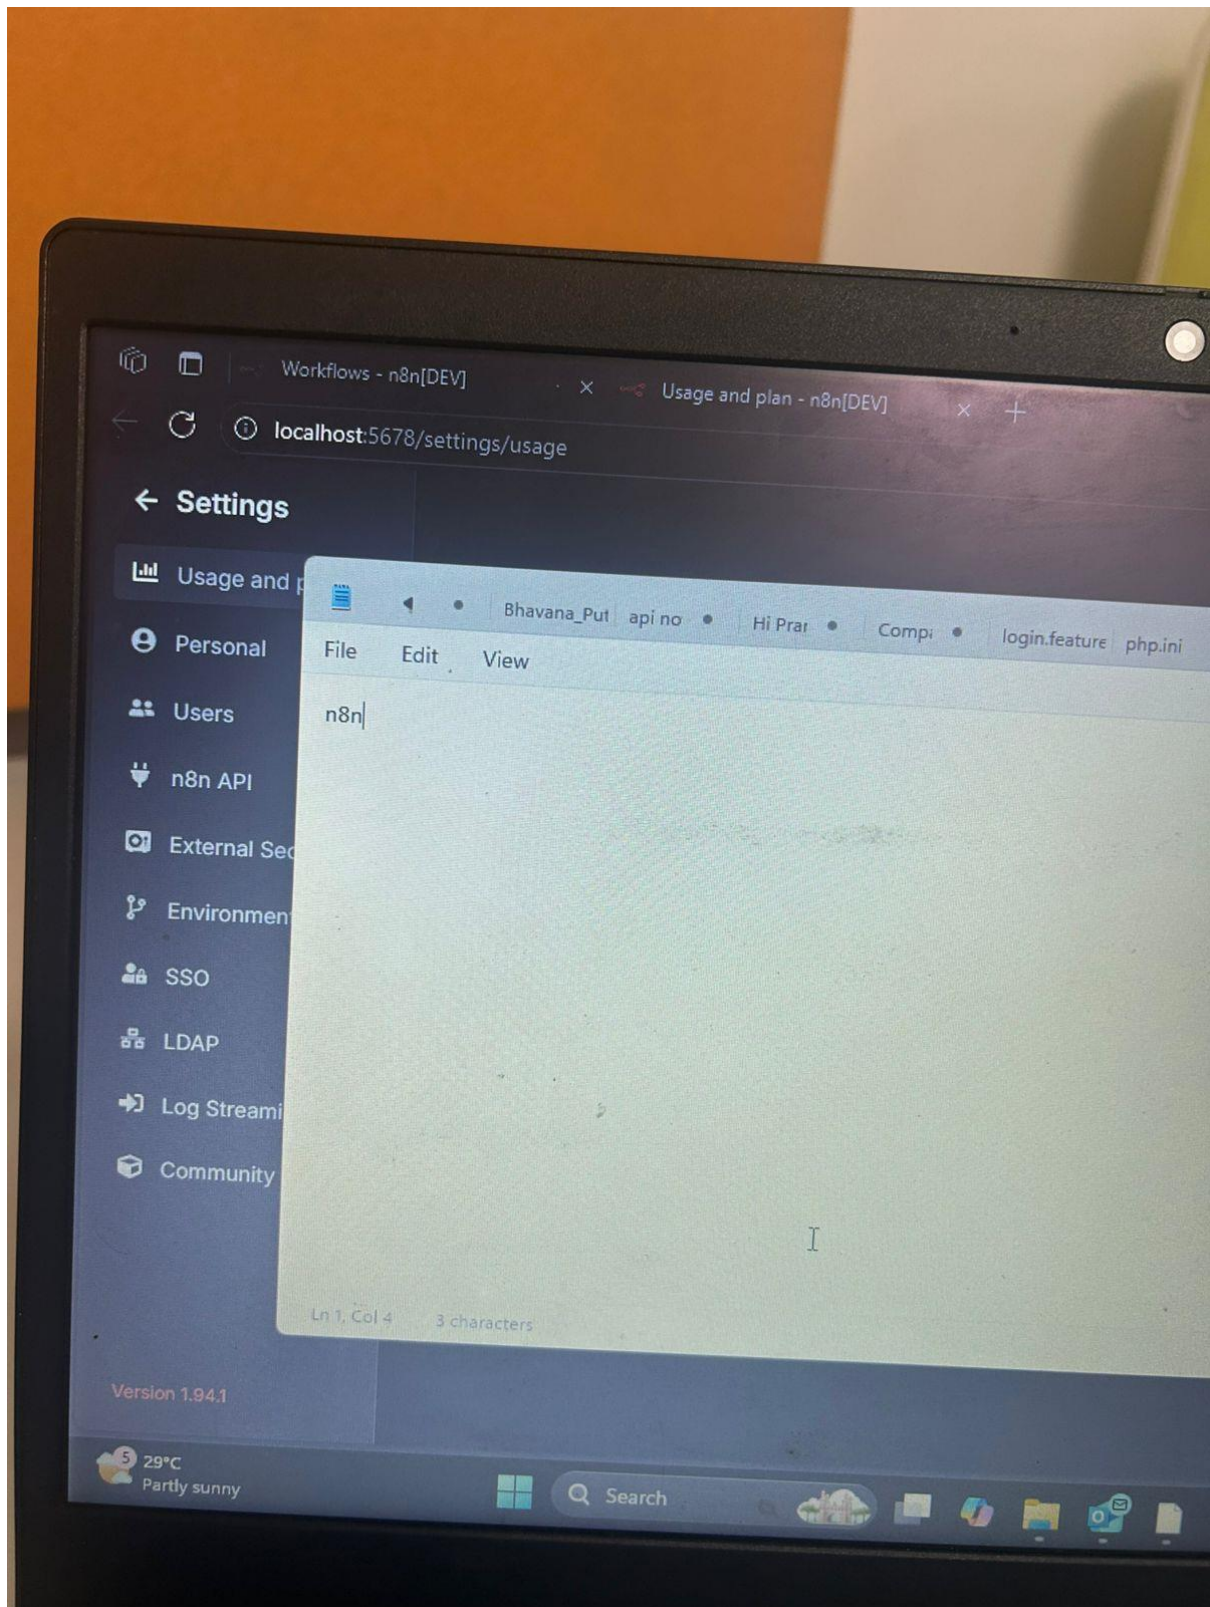

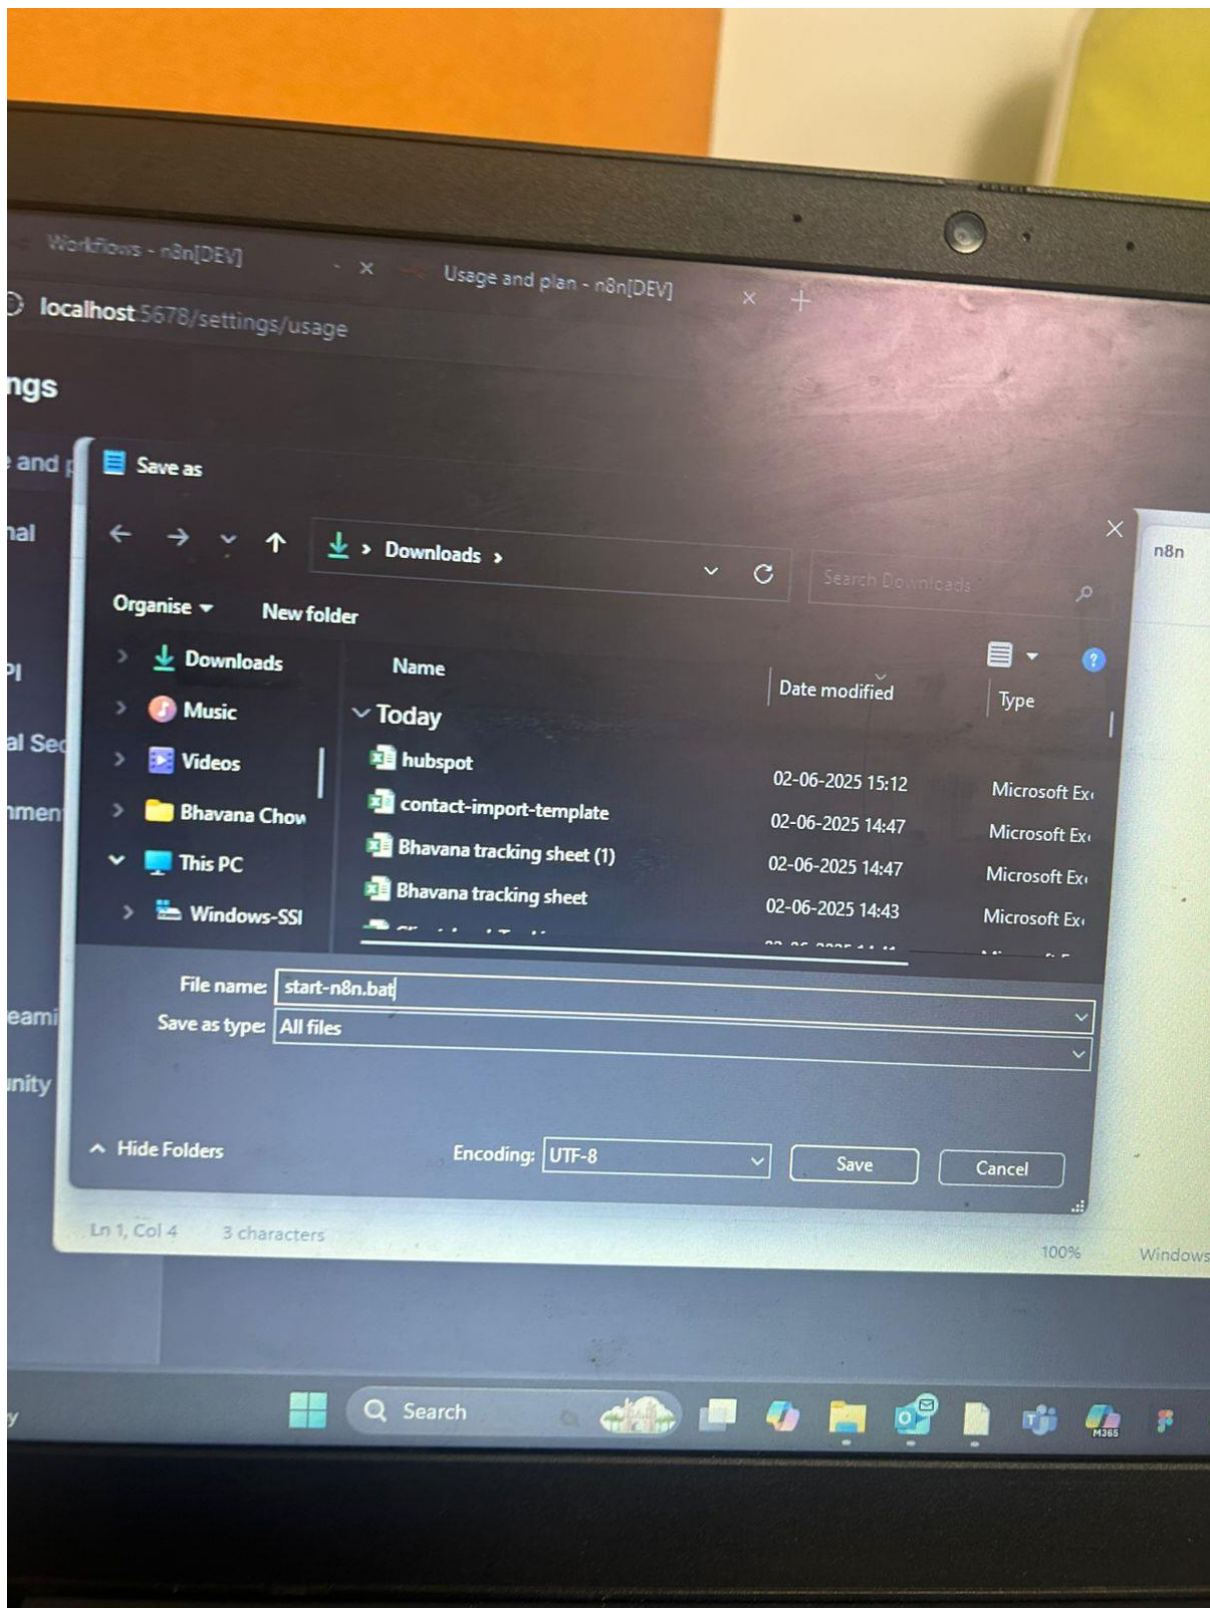

then after open notepad and type n8n

☐ Click **File > Save As**

☐ Set **Save as type** to **All Files**

☐ Name the file: start-n8n.bat

- Save it in the Desktop

- Double-click the file to run n8n

So all the process is done and the shortcut is also creted and from next to acsses it just double click on the n8n file in the desktop as saved in the before step

*after doble clicking it u will get this one
